TITLE: **Fire Chief** _____

SIGNATURE: _____

DATE: _____

Note: This request will be active for 4 years, after that time you must submit a new request.**Mail or Fax Completed Request to:****Arkansas Forestry Commission****Rural Fire Protection****PO Box 10****Greenbrier, AR. 72058****FAX # 1-501-679-3500**

AGREEMENT PROVISIONS

- (1) To obtain, prior to operation of said equipment, and continue in effect, for the duration of this agreement, public liability and property damage insurance in the amount required by State law to cover the operation of said equipment.
- (2) To provide Rural Fire Protection with a copy or certificate of said liability insurance prior to operation of said equipment.
- (3) To insure that add on tanks, pumps, hose reels, etc., will not cause the vehicle in this agreement to exceed the G.V.W. of that vehicle. Add on tanks shall be baffled.
- (4) To operate said equipment, at no cost to the State or Rural Fire Protection.
- (5) To respond with said equipment, adequately manned, to all fire calls within five (5) miles response distance of the fire station. Unless covered by another department.
- (6) To otherwise equip, outfit, paint and place said equipment in active fire service within a six-month period from the date of delivery. If unable to meet this time frame, you must contact the Rural Fire Protection Coordinator's office in writing within 10 days of the deadline to request an extension. Color of vehicle when painted shall be red, white, or yellow.
- (7) When truck is ready to be put in service, you will need to contact local Forestry personnel to come and inspect the vehicle.
- (8) You must keep all correspondence on equipment for 5 years from time of acquiring property and make all paperwork available for inspection by RFP or anyone else.
- (9) If equipment is to be disposed of you must contact the Rural Fire Protection Coordinator's office in writing to inform us of the disposal.
- (10) All guidelines and rules set by the FFP Program must be followed to insure that the program is not jeopardized and will be available in the future for fire departments.
- (11) You must also sign the attached DMV form 10-381 and the Request for Public Tag form which gives Rural Fire Protection authorization to have the title placed in your department's name.
- (12) The title will be held by Rural Fire Protection until the equipment is placed in service and then the title will be mailed to your department.
- (13) All forms must be signed by the person indicated and returned to Rural Fire Protection for the request to be active.

DOD FIRE FIGHTER PROGRAM VEHICLES

The new DOD Fire Fighter Program is a much different program than the older Federal Excess Personal Property Program. All participants need to be aware of the differences in the programs and the differences in the vehicles. Fire Fighter Program vehicles are not checked out before pickup due to the numbers going through the program. They are titled to the department as soon as they are located. Title changes are difficult after that point.

1. All vehicles are screened by computer pictures and descriptions and could have major problems. When we pick them up we try to make sure they will start and load on our trailer, but this is not always possible. Many are good vehicles; however, a few may have unrepairable problems. If you obtain one with major problems, you must write us a letter asking for the ability to sell or dispose of the vehicle due to excessive costs of repairs.
2. We recommend that when you come to Greenbrier to pick up a DOD vehicle, you check it over carefully. We also strongly recommend you bring a trailer to haul the vehicle instead of driving them home. Bent drive shafts from loading and transferring vehicles at the DRMO's can be repaired for about \$ 125.00, however, if they are driven home, the transmission can be ruined resulting in thousands of dollars for repairs. Fluids in some vehicles may be low or drained, filters stopped up or missing causing major failures. We recommend all vehicles be hauled to your location and then checked out.

Since these vehicles through the DOD Fire Fighter Program belong to your fire department when picked up, you are responsible for repairs and fluid checks. We receive 2 or 3 times as many through this program as the old one and we are unable to check them all out as we did in the past. Please be aware of this change in procedures.
